This image shows a detailed railway timetable spread across two pages. The left page lists various stations and their corresponding departure and arrival times. The right page continues the schedule, including train numbers and specific route details. The timetable is organized into columns for different routes and services. Blue arrows at the bottom of the pages indicate that the timetable can be rotated or viewed from different angles.

This image displays a user interface for a railway timetable application. The central part of the screen shows a timetable grid with columns for 'Data Partenza', 'Data Arrivo', 'Data Partenza', and 'Data Arrivo'. The left panel is titled 'Orario dei treni' and shows a route from Civitavecchia to Roma, with a legend for train status: 'Suppresso' (crossed out), 'Rinumerato' (plus sign), 'Viaggio solo' (circle with dot), 'Orari/Ferme diverse' (square with dot), 'il sabato' (square with dot), and 'la domenica' (square with dot). The right panel is also titled 'Orario dei treni' and shows a route from Roma to Civitavecchia, with a legend for train status: 'Suppresso' (crossed out), 'Rinumerato' (plus sign), 'Orari/Ferme diverse' (square with dot), 'il sabato' (square with dot), and 'la domenica' (square with dot). Both panels include a 'Generato con' logo for 'v3'.
